

Intellislate™

The portable presentation device with RF technology

The new Intellislate communicates with the computer through the most reliable RF wireless interface that plugs into any USB port on the computer.

Intellislate allows you to easily navigate your computer while roaming the classroom or conference room. Teachers and presenters no longer need to stay rooted to one place – in front of the class or behind a lectern. Intellislate breaks the chains with innovative and reliable RF technology. Cable-free mobility is yours without any connection or disruption issues!

Unique Softkeys located across the top of the tablet allow instant access to various captivating Presentation Tools, such as Annotation Pens, Spotlight and Reveal.

The software includes Virtual WhiteBoard (VWB) to build lesson plans and capture data and a clip art library with over 6,800 images! Now you can enjoy a higher level of interaction with your audience while delivering more captivating presentations or lessons.

Features

- Precise and lightweight cordless pen provides all necessary mouse functions
- Live annotation over presentations, programs, documents and web pages
- Clip Art Library for Geography, Math, Science, History and more
- Applicable to all Microsoft Office programs, including PowerPoint, Excel and Word
- Applicable to all MAC OSX software applications
- Virtual WhiteBoard (VWB) software to capture written notes and ideas automatically
- Online Help Menu
- Utilizes high efficiency Lithium-Ion rechargeable battery technology

Benefits

- Maximum interaction with students or audience because the teacher/presenter is not required to remain at the front of the room to conduct the lesson or presentation
- Great addition to any interactive whiteboard - more options to get students or audience actively involved
- Cost effective alternative to an interactive whiteboard - all the software features at a fraction of the cost
- Multi-pairing function allows up to fifty (50) units connected to one computer

Intellislate™

The portable presentation device with RF technology

Specifications

Communication Interface	2.4G RF Wireless
Active Area	8" x 6" (203.2 mm x 152.4 mm)
