## Optoma's EP910 ... Perfect for High-Profile Professional Installations

The EP910 high-performance digital projector is designed to effortlessly integrate into any corporate environment.

The Optoma EP910 features Texas Instruments' DarkChip3™ DLP® chipset to deliver vivid digital images with 10-bit per channel color, providing full color saturation and a 3000:1 contrast ratio to provide subtle color details.

The EP910 incorporates secure network management capability, with a web-based user interface that allows the projector to be managed remotely. All EP910 projectors in the network can be managed through a web browser, which allows configuration of the settings and real-time updates of the projectors' status.

- True SXGA+ (1400 x 1050) resolution with UXGA and 1080p support
- Exceptional UXGA (1600 x 1200) & 1080p (1920 x 1080) resolution
- Super-bright at 3500 lumens for dazzling images in a variety of environments and superior 3000:1 contrast ratio
- 10-bit per channel color detail reproduction that delivers amazing color detail
- Network administrative management capability with a web management interface and SMTP alarm messaging system
- Innovative "wind tunnel" cooling system designed for whisper-quiet operation and minimal light leakage
