

American Hakko Products, Inc.

PRODUCT BULLETIN

Bulletin No: PB111

Issue Date: December 1, 1999

Product:
CHP Cutters

Part No:
CHP-170

Specification:
See Drawing

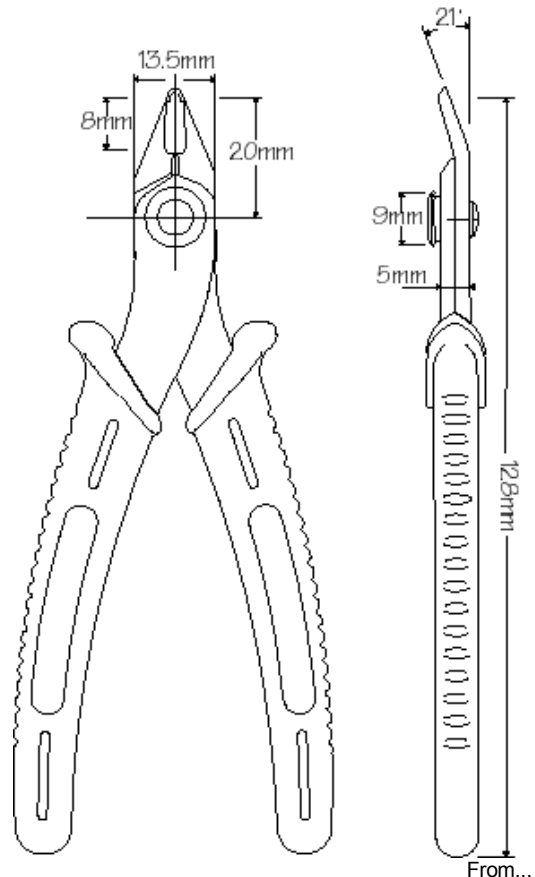

Comments:

A direct replacement for all 170 cutters.

The slim, triangular head design reaches into tight areas with ease. The 2.5mm thick stamping allows the flush cutting of a maximum wire size of 16AWG and longer life, as compared to the competition's 2.0mm thickness.

Accessories:
None

Available:
In Stock

For pricing information, please contact your local American Hakko representative or our customer service department at (661) 294-0090.
