

Universal Tabletop Stand

New stand adds style to plasma displays
with multiple base choices

PRODUCT SPECS

Features:

- Fits most 32"-50" LCD/plasma displays
- Choice of clear acrylic, black or silver base
- Griplate System™ safely supports displays during and after installation
- Height adjustable for precise placement
- Cables are concealed within tubes
- Base may be bolted for added security
- Lifetime Guarantee

PSD-TTS comes with a silver MDF base (above) or you can order it with a clear acrylic base as model PSD-TTS/C or black base as PSD-TTS/B (below).

PSD-TTS/C - Clear Acrylic Base

PSD-TTS/B - Black Base

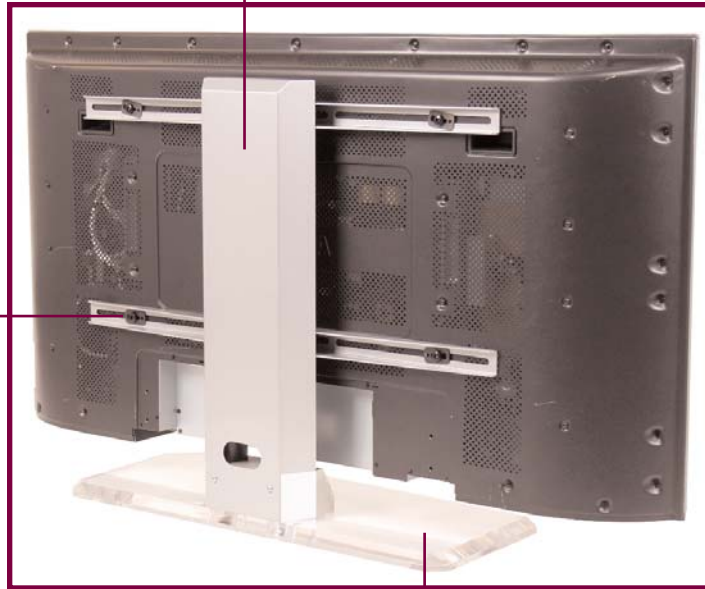

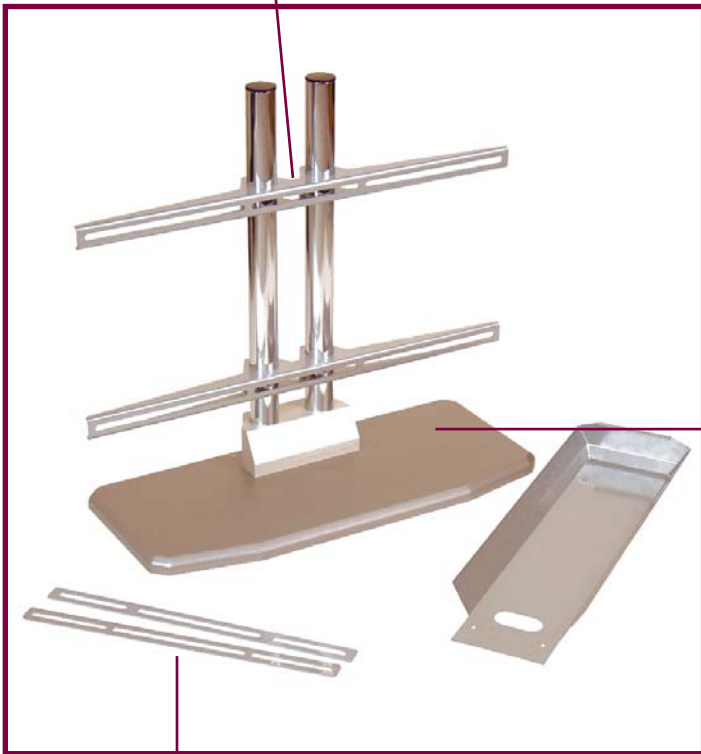

Rear cover hides signal and power cables from view

Griplate System accurately holds your display without overtorquing hardware

Mounting arms are adjustable anywhere along the two chrome posts

Customer may choose a silver MDF base (\$199.99), a black base (\$199.99) or a clear acrylic base (\$299.99)

Adapter brackets are supplied for displays that have more than four mounting points on the rear. This allows for total support at all critical mounting points.
