

DuPont™ Tyvek® 400 SFR

Secondary flame resistance with the protection, durability and comfort of Tyvek®

- Lightweight, disposable overgarment designed to help protect and preserve primary flame-resistant (FR) garments
- Composed of flash spun, high-density polyethylene, breathable, nonwoven Tyvek® fabric that has been flame-retardant treated, available only from DuPont
- For use over primary flame-resistant protective clothing
- Relaxed fit coverall design features a diamond gusset crotch to allow for unrestricted movement
- Offers an inherent barrier against hazardous and non-hazardous particles, oils and greases
- Features red external stitched seams, red zipper and red chest patch border
- Available in hooded and non-hooded options

NOTE: Tyvek® 400 SFR garments provide only secondary flame-resistant protection. They must always be worn over appropriate primary flame-resistant protective clothing in an environment that needs flame protection, along with other personal protective equipment that protects your face, hands and feet. For Tyvek® 400 SFR hooded garments, a primary flame-resistant hood/balaclava should be worn. Do not knowingly enter an environment in which the concentration of flammable gas is within flammable or explosive limits when wearing these garments. Retreat immediately if you encounter such an environment. Tyvek® 400 SFR garments are not intended for firefighting activities, nor for protection from hot liquids, steam, molten metals, welding or thermal radiation.

This information is based upon technical data that DuPont believes to be reliable. It is subject to revision as additional knowledge and experience become available. It is the user's responsibility to determine the level of toxicity, and the proper personal protective equipment needed. The information set forth herein reflects laboratory performance of fabrics, not complete garments, under controlled conditions. This information is intended for use by persons having the technical expertise to undertake evaluation under their own specific end-use conditions, at their own discretion and risk. Anyone intending to use this information should first check that the garment selected is suitable for the intended use. The end-user should discontinue use of garment if fabric becomes torn, worn or punctured, to avoid potential chemical exposure. Since conditions of use are beyond our control, DUPONT DE NEMOURS, INC.
