# Centro<sup>TM</sup>

privacy/modesty screen

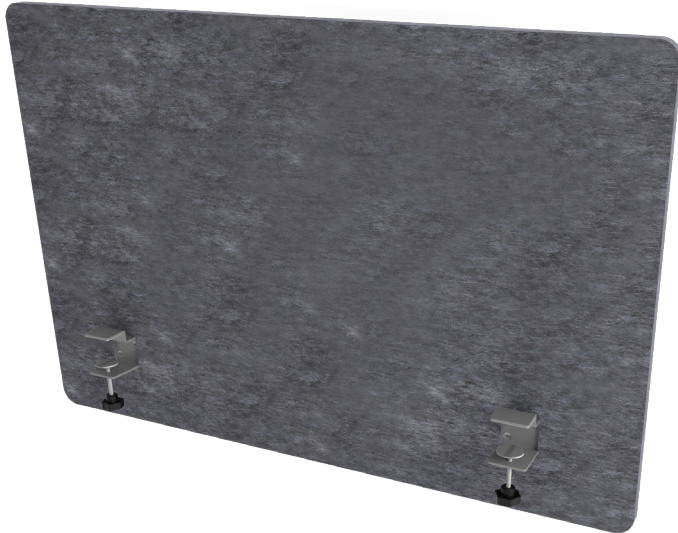

versatile.  
simple.  
centro.

*The Centro screen helps get your office in gear, offering the versatility of either a privacy or modesty application. Made from recycled water bottles, this value engineered screen has both a tackable and sound absorbent surface. The easy to install mounting brackets leave space between the screen and worksurface, allowing effortless cable organization to hide all that clutter. With six colors to choose from, any workstation can be customized to help you bring on the workday.*

Four available lengths: 34", 46", 58", and 70"\*

25.0" screen height

Universal mounting system allows brackets to be set for privacy or modesty applications

.75" screen thickness

Sound level absorption NRC up to .9

Mounting brackets designed to accommodate .5"-1.8" thick worksurfaces

Six available colors: Cobalt Blue, Pear Green, Sandstone, Ash, Charcoal, and Slate

Convenient tackable surface

Made from 60% post-consumer recycled plastic water bottles & 100% recyclable
