

# Measurement standards

## Height adjustable table bases

ESI standards by which we measure all height adjustable tables.

*Foot length - Measure from the front of the foot to the back of the foot. Some models have adjustable length feet.*

**frame width  
min./max.**

*Frame width - Measure from the outside of both top supports. Some base models have adjustable frame widths.*

*Height adjustment - Measure from the floor to the top of the top support. This measurement doesn't include the worksurface.*

*Measure from the front of the foot to the back of the foot. Some models have adjustable length feet.*
