# GC-1000 High Frequency Golf Cart Battery Charger

GC-1000 Golf Cart Battery Charger

## Product Overview

The **GC-1000** Golf Cart Battery Charger is a high frequency automatic battery charger for golf cart batteries. The GC-1000 is compatible with various 36V and 48V vehicle models, including E-Z-GO, Club Car, and Yamaha. The GC-1000 is lightweight, easy-to-use and can begin a charge cycle with the batteries as low as two volts. Red, Yellow and Green LED lights on the unit indicate the charging status. The float feature allows for batteries to maintain full charge at the end of a charge cycle. In addition, the GC-1000 has overload protection, and charging will be interrupted if the maximum temperature has been exceeded, protecting the batteries from over temperature and thermal runaway.
