

Specifications

Units: Imperial Metric

| | |
|--------------------------------------|--|
| Maximum Operating Pressure (psi) | 10,000 |
| Internal Diameter (in) | 0.25 |
| End One Coupler | 3/8" NPTF Male |
| End Two Coupler | 3/8" NPTF Male |
| Hose Oil Capacity (in ³) | When using long hose lengths, it is sometimes necessary to fill the pump reservoir after filling the hoses. To determine the hose oil capacity, use the following for .25" internal diameter hoses: Capacity (in3) = .5892 x Length (ft) |
| Length (ft) | 3 |
| Weight (lbs) | 1.5 |
