Personal precautions	Use personal protective equipment as required. Ensure adequate ventilation, especially in confined areas. Stop leak if you can do it without risk. Do not walk through spill.	
Environmental precautions		
Environmental precautions	Keep unauthorized personnel away. Stay upwind. See Section 12 for additional ecological information.	
Methods and material for containment and cleaning up		
Methods for containment	Prevent further leakage or spillage if safe to do so.	
Methods for cleaning up	Soak up with inert absorbent material. Prevent product from entering drains. Pick up and transfer to properly labeled containers.	
Prevention of secondary hazards	Clean contaminated objects and areas thoroughly observing environmental regulations.	
7. HANDLING AND STORAGE		

Precautions for safe handling		
Advice on safe handling	Handle in accordance with good industrial hygiene and safety practice. Avoid breathing fume/mist/vapors/spray.	
Conditions for safe storage, including any incompatibilities		
Storage Conditions	Keep away from heat, sparks, flame and other sources of ignition (i.e., pilot lights, electric motors and static electricity). Keep containers tightly closed in a dry, cool and well-ventilated place. Use mild steel or High Density Polyethylene containers. Do not use PVC. Store at temperatures not exceeding 120°F.	
Incompatible materials	Incompatible with oxidizing agents. Incompatible with strong acids and bases.
