

Specifications

Units: Imperial Metric

Maximum Operating Pressure (psi)	10,000
Internal Diameter (in)	0.25
End One Coupler	CH604
End Two Coupler	CH604
Oil Capacity (in ³)	3.54
Hose Oil Capacity (in ³)	When using long hose lengths, it is sometimes necessary to fill the pump reservoir after filling the hoses. To determine the hose oil capacity, use the following for .25" internal diameter hoses: Capacity (in3) = .5892 x Length (ft)
Length (ft)	6
Weight (lbs)	3.1
