Specifications

Units: [**Imperial** | Metric]

Internal Diameter (in)	0.25
End One Coupler	3/8" NPTF
End Two Coupler	C604
Oil Capacity (in³)	5.89
Hose Oil Capacity (in³)	When using long hose lengths, it is sometimes necessary to fill the pump reservoir after filling the hoses. To determine the hose oil capacity, use the following for .25" internal diameter hoses: Capacity (in3) = .5892 x Length (ft)
Length (ft)	10
