Performance of a Powered Pump

Portability of a Hand Pump

- **Lightweight design with integrated handle and carrying strap for portability**
- **Bladder reservoir prevents contamination and allows pump usage in any position**
- **Powerful ½ horsepower motor and 28-volt Lithium-Ion battery deliver exceptional speed and run time**
- **High-strength fiberglass reinforced composite shroud for superior durability in demanding job site environments**
- **Cordless technology eliminates tripping hazards found in other electric or air powered pumps**
- **Available in torque wrench, dump and hold, single-acting and double-acting valve configurations**

GA45GC Gauge Adaptor

Protect yourself from system overloading by simply ordering one part number for a pre-assembled gauge, adaptor block and coupler.

Page: 162

28-Volt Battery

The XC28V with Lithium-Ion technology for maximum battery performance.

Roll Cage

Optional Roll Cage XC-Series pumps. Please order model number **XCRCTK**.

Interactive Pendant

An interactive pendant is available on the **XC1302S** dump and hold models and **XC1502T** torque wrench

models. Operation, programming, and diagnostic status are provided to the user with yellow, green, and red LED as well as vibration pulses.

The **XC1302S** models can easily toggle between "jog operation" to "dump system pressure" and the **XC1502T** models allow "manual" and "auto cycle" mode.
