Easy Interactive Tools Ver. 4.0 Operation Guide

Features

Easy Interactive Tools is an application that allows you to draw on projected images.

By using your finger (on projectors that support finger touch operation) or the interactive pen supplied with a projector, or your computer mouse, the following drawing functions become available.

Drawing on the projected image (Annotation mode)

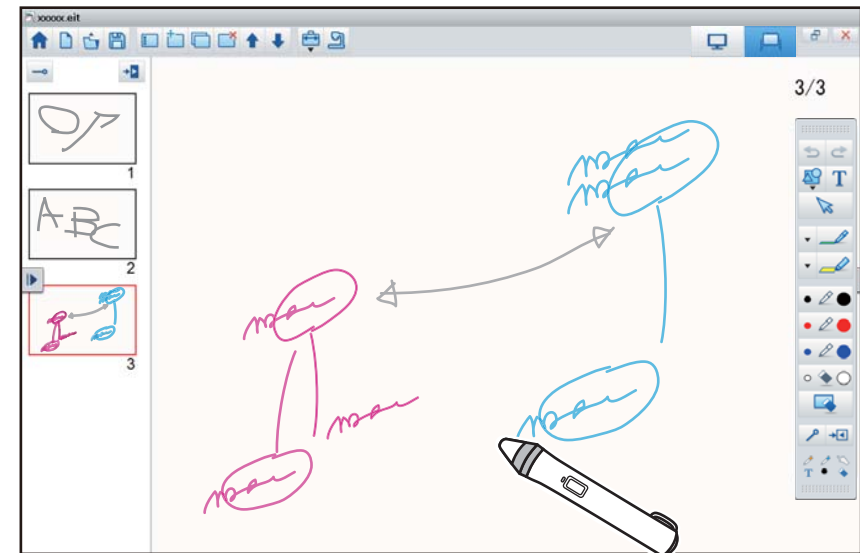

Annotation mode allows you to add points and notes to the projected image. By using illustrations, images, and graphics, you can enhance classroom lessons and create more appealing presentations.

☛ "Drawing in Annotation mode" [p.11](#)

Drawing on a plain background (Whiteboard mode)

Whiteboard mode allows you to add text or images to a solid color background. You can also select different backgrounds such as grid lines or music sheet. Lined backgrounds could be useful for writing minutes or documents during a meeting.

☛ "Drawing in Whiteboard mode" [p.12](#)

Other interactive functions

You can also do the following:

- Operate the computer's mouse
 - ☞ "Operating a mouse from the projected image (mouse operations)" [p.11](#)
- Control devices connected to a computer, such as a projector or document camera
 - ☞ "Tool Panel Functions" [p.16](#)
 - ☞ "Camera Screen" [p.18](#)
- Edit content drawn on the projected screen
 - ☞ "Adjusting and Editing Shapes and Images" [p.26](#)
- Save the content you created as a PowerPoint slide
 - ☞ "Slideshow Drawing Tool" [p.27](#)
- Network teleconferencing

When you connect a projector to a computer over a network using EasyMP Network Projection or EasyMP Multi PC Projection, you can share the projected screen with a remote location.

When used with Easy Interactive Tools, you can share annotations and drawings made on the projected screen with multiple locations.

(Interactive pen and finger touch operations are supported only by EasyMP Network Projection.)

Basic Operation

Starting Easy Interactive Tools

Make the following preparations before starting Easy Interactive Tools.

The product's setting method and items varies depending on the model being used. Also, models that do not support network connection cannot be connected to over a network. For more details, see the product's User's Guide.

When connecting a computer to the product with a USB cable:

- Connect the USB cable to the computer's USB port and the product's USB-B port.
- If you're using a document camera, connect the computer to your projector with an HDMI or VGA cable.
- Select the **Extended** menu settings from the projector's menu system. (Set **Pen mode** to **PC interactive**, or select the mouse mode icon on your screen.)

When connecting a computer to a projector over a network:

- Select network settings so that the computer can connect to the network.
- Connect a wireless LAN unit (if necessary) or a LAN cable so that the projector can connect to the network.
- Select the **Network** settings from the projector's menu system.
- Install the EasyMP Network Projection software for the projector.
- Open the Set options screen, select the **General settings** tab, and select **Use Interactive Pen** and **Use Easy Interactive Tools**. (Only one interactive pen at a time is supported with EasyMP Network Projection.)

Some projector models require a USB cable for interactivity. For more details, see the product's User's Guide.

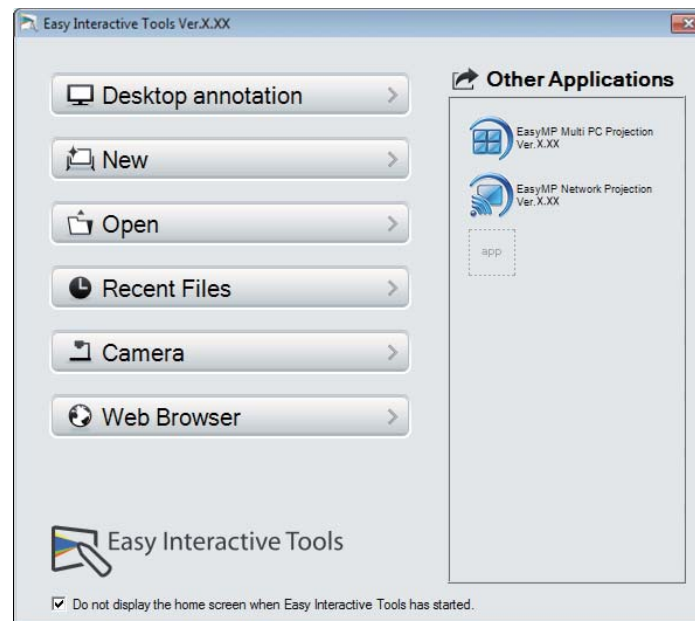

Turn on the product and project images from the computer.

Start Easy Interactive Tools on the computer.

- **Windows Vista/Windows 7:** Click or **Start > All Programs or Programs > Easy Interactive Tools Ver.X.XX**.
- **Windows 8/Windows 8.1:** Navigate to the **Apps** screen and select **Easy Interactive Tools Ver.X.XX**.
- **Windows 10:** Click > **All Apps > Easy Interactive Tools Ver.X.XX**.
- **OS X:** From the **Applications** folder, double-click **Easy Interactive Tools Ver.X.XX**.

Easy Interactive Tools starts and the Home screen is displayed.

3

If you are using a document camera, click the Camera button and use the application's toolbar to perform functions.

If you start Easy Interactive Tools while playing a movie, the movie playback screen may turn black. Restart the application software that is playing the movie.

Operating the Interactive Pen

You can use the interactive pen supplied with your projector to operate the Easy Interactive Tools software.

The functions and shape of the interactive pen differ depending on the projector model with which it was supplied. For more details, see the projector's *User's Guide*.

Check that there is a battery in the interactive pen, and then turn it on.

Press the pen tip button to the screen to select an icon.

Press and move the pen on the screen to draw.

- You can use two interactive pens at the same time, if available for your projector model. However, you can only use one while connected to a network or while on a window displayed in Whiteboard mode. See your projector's User's Guide for more information.
- You can operate Easy Interactive Tools with up to six devices at the same time, such as a mouse connected to a computer, interactive pens, and finger touch.
- The following operations can only be performed by one device:
 - Operations on the Home screen, Settings screen, Camera screen, Insert image screen, and Select background screen
 - Adjusting and editing identical shapes and images
 - Using menus
 - Entering text
 - Operations on a window displayed in Whiteboard mode

Caution:

Do not hold the tip (a) of the interactive pen or allow it to become cracked or dirty. Otherwise, the interactive pen may fail to operate.

Finger Touch Operations

On projectors that support finger touch operation, you can use your finger to perform the same functions as the interactive pen.

When performing finger touch operations, you can use two fingers for multi-touch operations such as enlarging or reducing the image. The projector recognizes up to six multi-touch points. When a group of people are performing finger touch operations, all members must use the same drawing tool.

Drawing

Select functions from the Command Bar and the Drawing Toolbar.

① Command Bar

Allows you to change mode, save files, control connected devices, and make a variety of settings.

② Drawing Toolbar

Allows you to select the thickness and color of the pen lines, and select graphics or text for the drawing area.

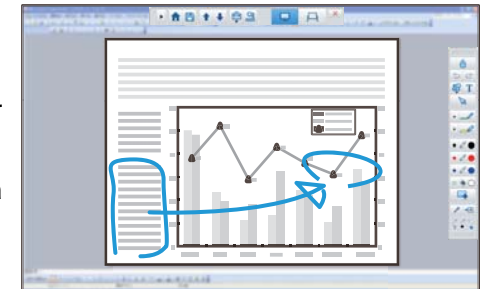

Two drawing modes

Easy Interactive Tools provides two drawing modes. When you change the mode, the screen changes as shown below.

Annotation mode

Allows you to draw on the image currently displayed on the computer. This is useful when you need to emphasize certain points or add notes.

You can also draw on images from a document camera.

Whiteboard mode

Allows you to display and draw on a plain screen. You can treat the drawing area as a page, and create multiple pages to draw on.

You can also save your drawings as a file (using .eit file format) and open them again later.

Drawing in Annotation mode

This section explains how to draw on images from a computer's screen or document camera in Annotation mode.

- 1 **Select Desktop annotation on the Home screen or  from the Command Bar.**

Annotation mode starts and the computer's screen is displayed.

To draw on images from a document camera, select **Camera** on the Home screen or  from the Command Bar. The image from the document camera is displayed on the Camera screen.

☞ "Camera Screen" [p.18](#)

- 2 **Select  on the Drawing Toolbar.**

- 3 **Draw on the projected image.**

To change the color and thickness of the pen lines, select  next to  to display the pen palette.

Once you have selected the color and thickness, select  to close the pen palette.

- 4 **To erase drawings, select  or  from the Drawing Toolbar.**

- When you select , you can use the interactive pen or your finger as an eraser.
- When you select , all of the current drawings are erased.

- 5 **To save the contents of your drawing, select  from the Command Bar.**

You can save the displayed screen in .jpg, .bmp, .png, .pdf, or .eit format.

You can select the save location, file name, and the file format on the **Save Settings** tab on the Settings screen.

☞ "Save Settings tab" [p.21](#)

If you open an .eit file on another computer that has a different display resolution, some parts of the drawings may not be displayed.

Operating a mouse from the projected image (mouse operations)

When you select  from the Drawing Toolbar in Annotation mode, you can operate the computer from the projected image (mouse operations).

When mouse operations are activated, you can use the interactive pen to perform operations such as click, right-click, and drag & drop.

- To click, press and remove the pen tip from the projected image.
- To right-click, press the right button on the interactive pen, or hold the pen tip on the projected image for a few seconds and then remove it.
- To drag & drop, press the pen tip to the icon or object that you want to move, drag the pen tip to where you want to move the object, and then remove the pen tip from the projected image.

- You cannot use the drawing functions when performing mouse operations.
- To use the drawing functions, select  again.

Drawing in Whiteboard mode

This section explains how to draw on a plain page in Whiteboard mode. In Whiteboard mode, you can add pages from the Command Bar and display a page list screen where you can perform page operations.

1 Select New on the Home screen or from the Command Bar.

Whiteboard mode starts and a new page is displayed.

To open a previously saved file, select **Open** on the Home screen or  from the Command Bar.

2 Select on the Drawing Toolbar.

3 Draw on the page.

To change the color and thickness of the pen lines, select  next to  to display the pen palette.

Once you have selected the color and thickness, select  to close the pen palette.

4 To erase drawings, select or from the Drawing Toolbar.

- When you select , you can use the interactive pen or your finger as an eraser.
- When you select , all of the current drawings are erased.

5

From the Command Bar you can add, delete, duplicate, or move pages.

Displays thumbnail images of the available pages.

- Select a thumbnail image to change the displayed page.
- Drag & drop a thumbnail image to change the display order.

Adds and displays a new page.

Duplicates the page currently displayed.

Deletes the page currently displayed.

Moves the page currently displayed up by one position.

Moves the page currently displayed down by one position.

6

To save the contents of your drawing, select  from the Command Bar.

When you use full display in Whiteboard mode, use  to select **Save** or **Save As**.

Saves all pages with drawings in .jpg, .bmp, .png, .pdf, or .eit format.

If you want to edit a file again in the future, you must save it in .eit format.

If you open an .eit file on another computer that has a different display resolution, some parts of the drawings may not be displayed.

Save Format	Save Unit
.jpg/.bmp/.png	Saves all pages by treating one page as one file.
.pdf/.eit	Saves all pages in one file.

You can select the save location, file name, and the file format on the **Save Settings** tab on the Settings screen.

☞ "Save Settings tab" [p.21](#)

Changing between full display and window display

When you select  or  from the Command Bar in Whiteboard mode, you can switch the drawing screen between full display and window display.

- During window display, you can use only one finger or one interactive pen.
- During window display, operations outside the window become computer mouse operations.

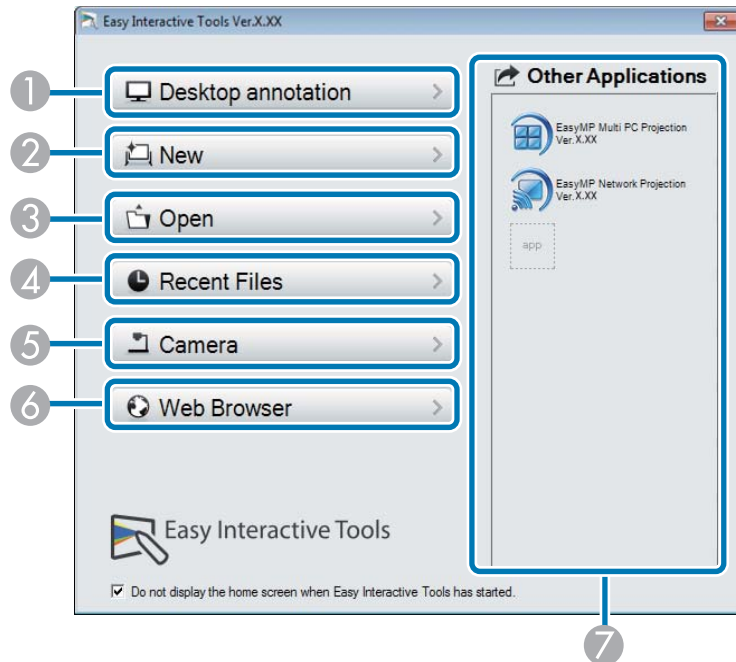

Exiting Easy Interactive Tools

You can exit Easy Interactive Tools using one of the following methods:

- Click  on the Command Bar.
- **Windows:** Right-click  on the task tray and click **Close window**.
- **OS X:** Control-click  in the Dock, go to Easy Interactive Tools, and select **Quit Easy Interactive Tools**.

Home Screen Functions

You can perform the following functions on the Home screen.

① Desktop annotation

Annotation mode starts and the computer's screen is displayed.

② New

Whiteboard mode starts and a new file is displayed.

③ Open

Whiteboard mode starts and you can open a file saved previously. You can select .eit files or .avi files for Windows, or .eit or .mov files for OS X.

④ Recent Files

Whiteboard mode starts and the most recently saved file is opened. You can select .eit files or .avi files for Windows, or .eit or .mov files for OS X.

⑤ Camera

Annotation mode starts and the image from the projector or document camera is projected.

⑥ Web Browser

Annotation mode starts and the computer's Web browser starts.

⑦ Other Applications

You can register up to eight shortcuts for frequently used applications.

You can register an application by simply dragging & dropping the shortcut icon into the empty frame. To remove a registered application, drag & drop the icon off the Home screen.

When EasyMP Network Projection or EasyMP Multi PC Projection are installed on the computer, these applications are registered automatically and cannot be removed.
