## ERGOTRON®

### Neo-Flex® Touchscreen Stand

#### Highlights

- Solid platform: screen remains stable when touched
- Up to 6.5" (16,5 cm) of height adjustment for customized, ergonomic viewing of the screen
- Heavy-duty design and extra capacity make it the perfect monitor stand for hefty displays or all-in-one computers
- A visual indicator on back of stand lets you know when the proper counter-balance tension is achieved during setup, ensuring optimum motion adjustment
- Full 360° rotation allows effortless screen sharing with others
- A great solution for bifocal viewing when screen is lowered and tilted upward
- Easy adjustment, easy installation

#### Ideal for touchscreen and all-in-one PC applications

A robust hinge mechanism provides an incredible 115° of tilt adjustment while simultaneously controlling monitor height. This flexibility allows the screen to be moved parallel with the desktop—perfect for touchscreen applications.

This stand's strength and heavy-duty design also make it well suited for use with all-in-one PCs and hefty displays.

Includes base, hinged arm and pivot, adjustment tool  
 Simple cable management feature routes cords  
 Larger screens may contact the worksurface when moved to the lower position with the screen perpendicular to desktop: height-adjustment range may be limited
