ERGOTRON®

SV LiFe Power Upgrade System

Highlights

- AC power supports computer equipment without the hassle of adapters or converters (DC power also available)
- On-board battery charging delivers full power to cart while simultaneously charging battery—no need for battery swapping
- No complicated workflow required; just plug in as needed or as wall outlets are available
- Ultrafast charging time—about 3 hours; 10A charge rate
- Battery has LED indicator for charge status. State of charge indicator shows time remaining in 20% increments
- 12V, 330Wh LiFePO₄ battery weighs only 8.1 lbs (3,7 kg)
- LiFe battery chemistry is safe and offers greater power capacity
- Fully certified system at both the battery and system level:
 - > Battery certified to UL 2054, IEC 62133
 - > System level certification to UL 60601-1
- Battery and holster connectors rated to 5,000 cycles
- Exceptional warranty is included (see website for details)

Certified. Lightweight. Ultrafast recharge. Long battery LiFe.

Add dependable, portable power to non-powered StyleView carts

Easily upgrade a non-powered StyleView Cart* with the SV LiFe Power Upgrade System. This on-board charging system provides plenty of energy for all the computer hardware on the cart. Powerful, yet lightweight Lithium Iron Phosphate (LiFe) batteries are certified safe and provide long life with ultrafast recharge times. The system includes power system module with user interface, 12V 330Wh LiFe battery, state-of-charge indicator (SOC), AC coiled power cord, 3-outlet power strip and attachment hardware.

* Attaches to the t-slot channel of current non-powered StyleView carts; also compatible with legacy StyleView and other Ergotron cart models (with accessories sold separately)

SV LiFe Power Upgrade System

Power Upgrade System includes:

- power module
- battery holster
- 12V 330Wh LiFe battery
- state-of-charge indicator (SOCI)
- AC coiled power cord
- 3-outlet power strip
- attachment hardware

Powerful Lithion Iron Phosphate (LiFe) battery weighs just 8.1 lbs (3.7 kg). On-board charging delivers full power to cart while simultaneously charging battery

State-of-charge LED indicator provides charge status in 20% increments. Four green lights indicate that battery is fully charged; one flashing amber LED indicates that less than 10% of the battery's capacity remains

Ergotron cart compatibility for SV LiFe Power Upgrade System

StyleView SV40/41/43-series carts

Mounting hardware is included (the system easily attaches to the t-slot channel of current StyleView carts)

Legacy StyleView SV31-series carts, Neo-Flex WideView Workspace, original WorkFit-C and original Neo-Flex carts

Attaches using two #60-587 interface brackets (sold separately)

Current Neo-Flex carts

Attaches using mounting kit #97-818 (sold separately)
