Hazard Symbols Review

These symbols alert users of a safety condition that demands attention. All users should be able to recognize and understand the significance of the following Safety Hazards if encountered on the product or within the documentation. Children who are not able to recognize and respond appropriately to Safety Alerts should not use this product without adult supervision!

Symbol	Signal Word	Level of Hazard
	NOTE	A NOTE indicates important information that helps you make better use of this product.
	CAUTION	A CAUTION indicates either potential damage to hardware or loss of data and tells you how to avoid the problem.
	WARNING	A WARNING indicates either potential for property damage, personal injury, or death.
	ELECTRICAL	An Electrical indicates an impending electrical hazard which, if not avoided, may result in personal injury, fire and/or death.

Safety

Important! You will need to adjust this product after installation is complete. Make sure all your equipment is properly installed on the product before attempting adjustments. This product should move smoothly and easily through the full range of motion and stay where you set it. If movements are too easy or difficult or if product does not stay in desired positions, follow the adjustment instructions to create smooth and easy movements. Depending on your product and the adjustment, it may take many turns to notice a difference. Any time equipment is added or removed from this product, resulting in a change in the weight of the mounted load, you should repeat these adjustment steps to ensure safe and optimum operation.

Warning: Impact Hazard! Moving Parts can Crush and Cut.
 Raise worksurface to top of vertical adjustment **BEFORE** removing equipment.
 Failure to heed this warning may result in serious personal injury and or property damage!

Warning: Impact Hazard! Moving Parts can Crush and Cut.
 Raise monitor to top of vertical adjustment before removing.

! WARNING IMPACT HAZARD

Moving Parts Can Crush And Cut!

Minimize Lift Tension BEFORE:

- Removing Mounted Equipment
- Shipping Cart or Storing Cart

To Minimize Lift Tension

1. With cart upright, lower worksurface to lowest position.
2. Turn adjustment nut at bottom of riser counterclockwise until it stops (Adjustment may require 40-60 revolutions):

Failure to heed this warning may result in serious personal injury or property damage!

Cart Must Remain Upright! Tipping Cart On Side May Cause the Work Surface to Disengage Causing Serious Personal Injury and Property Damage.
