Safety

! WARNING	 <small>828-100</small>
PINCH POINT DO NOT place hands on or near support bars. Pinch points are created during lifting and lowering the worksurface. Failure to follow these instructions may result in serious personal injury.	

Warning: Impact Hazard! Moving Parts can Crush and Cut.
Raise this product to its full up position before lifting off the desk.
Two people are required to lift this product off the desk.
Do not tip this product on its side or upside down. This product must remain upright at all times.
Failure to heed this warning may cause unintended motion of the lift mechanism resulting in possible serious personal injury and or property damage!

Warning: Impact Hazard! Worksurface under tension. Moving Parts can Crush and Cut.
Raise worksurface to top of vertical adjustment **BEFORE** removing equipment.
Failure to heed this warning may result in serious personal injury and or property damage!

Warning: Because mounting surface materials can vary widely, it is imperative that you make sure mounting surface is strong enough to handle mounted product and equipment.

CAUTION! Follow these instructions when drilling a new grommet hole. Failure to follow these instructions may cause damage to equipment or create an unstable situation resulting in a tipping hazard causing personal injury or equipment damage.

CAUTION! TIPPING HAZARD
Rotating display past **FRONT** or **REAR** edge may create an unstable situation and could result in equipment damage and/or personal injury.

Safety

CAUTION: DO NOT EXCEED MAXIMUM LISTED WEIGHT CAPACITY. SERIOUS INJURY OR PROPERTY DAMAGE MAY OCCUR!

Tools Needed

1 Lift to full up position.

2

Use center existing grommet hole.

DO NOT use any other holes.

Drill a new grommet hole using the template.

CAUTION! Drilling a new grommet hole is only when mounting the 45-241 LX Desk Mount LCD Monitor Arm. Drilling a new grommet hole for any other product will create an unstable situation and may result in equipment damage and/or personal injury.

Drill a new grommet hole using the template.

1. Make sure you use the correct side of the template for your work surface:
 - One side of the template is for the WorkFit-T which has a 35" (889) wide worksurface.
 - The other side of the template is for the WorkFit-TL and TLE which are wider and have a 37.5" (953 kg) wide worksurface.
2. Align the 2 holes in template with the front two plugs in the worksurface.
Make sure you use the correct side of the template for your work surface.
3. Drill your grommet hole anywhere within the white area of the template.
DO NOT drill in the shaded areas of the templates.
