Ericson's 1100 Series of LED Wide Area Lighting Solutions provide uncompromised safety and performance by combining cULus wet location listing, rugged construction, and energy efficient LED technology. Ideal for indoor and outdoor use these innovative work lights are lightweight, impact resistant, and designed to deliver years of worry free operation. Cool white LED lighting reduces eye stress and improves visual acuity thus greatly enhancing the work space environment, but also reducing energy costs. The convenient built-in daisy-chain feed thru capability provides the ability to light large areas with a single power drop, up to twelve lights can be daisy-chained together, while the rubberized non-conductive handles ensure safe, reliable operation. Additionally, the 1100 Series is available in multiple configurations and wattage ratings making these solutions ideal for a wide range of applications including: • Tunnel Lighting • Task Lighting • Tent Lighting • Entertainment Venues • Emergency Medical Care • Defense / Safety • Utility Maintenance • Sporting Events
