

Flex Rig Commercial Cable Reel

Flexible Mounting Options for Superior Versatility

Ericson's Flex Rig cord reel combines the convenient features that you expect - like a four-roller cable guide and the ability to retract cables as long as 50 feet - with an innovative mounting base plate for unmatched versatility and relocation options.

The separate mounting base plate allows for ease of installation and relocation of the reel saving time and labor costs.

Flex Rig is ideal for warehouses, retail stores, maintenance shops, schools, and laboratories to power tools, seasonal displays, machines, and light sources.

With premium product features at an economical price point, the Flex Rig cord reel from Ericson is a terrific choice to tackle your commercial cable management needs.

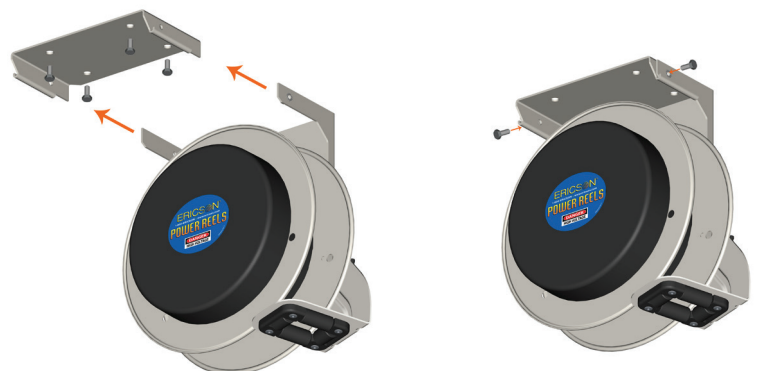

Standard Product Features:

- Powerful spring motor capable of pulling and retracting up to 50 ft. of cable
- Separate innovative mounting base plate offers flexibility in mounting options, attach one to a ceiling, wall, or bench
- Adjustable ball stop and locking ratchet
- Reinforced steel frame with black molded nylon cover
- Four-roller cable guide minimizes cable stress that extends the life of the cable
- Increases work site safety and lowers maintenance costs
- cULus listed for indoor use
- 1-year warranty
- Made in the USA

Product Options:

- Wire lengths: 35 or 50 ft.
- 12 or 16 gauge
- Amperage: 10A, 15A, and 20A
- Available with GFCI

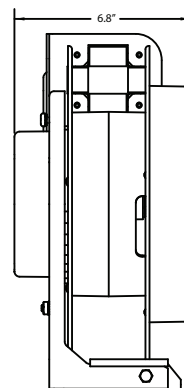

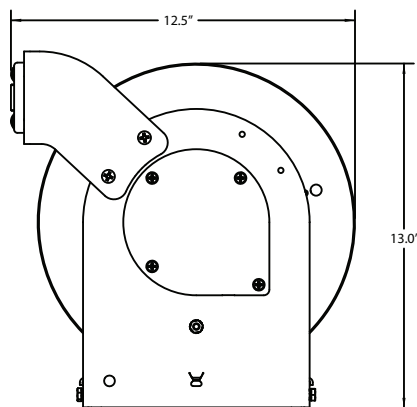

Flexible Mounting Base
