Part#: 159-RT-ET

Tweezers - Replaceable Carbon Fiber .012" x .011" Tip - Ergo Grips
Will not scratch or marr delicate items

The 159-RT-ET soft replaceable tip tweezer is 5 inches long and features ultra-fine tips measuring 0.012 inches wide. The tips are made from Carbofib™, a polymer material reinforced with 30% carbon fibers, offering high conductivity (10^2 ohms/sq), excellent rigidity, superior tensile and flexural strength, resistance to fatigue and creep, and heat resistance up to 249°F. The tweezer body is constructed from Neverust® anti-magnetic stainless steel (AISI 316L), ideal for handling delicate components. It also features an ergonomic handle with Ergo-Tweeze® soft cushioned Anti-Static grips (surface resistivity of 10^{10} ohms/sq), which provide user comfort and protection from heat.
