

### MODEL ET30A Automotive DC Circuit Tester

#### INTRODUCTION

- Test DC Voltages from 6 to 24 Volts.
- Ideal for checking circuits, fuses, switches and wiring on automobiles, trailers, boats, motorcycles, and other low voltage systems.
- Features 30" (76cm) test lead with alligator clip for one-hand operation, insulated pointed probe for piercing wire insulation, and pocket clip.

#### OPERATION

Connect the alligator clip to the negative side of the circuit. Touch the test probe tip to the positive side of the circuit. Tester will light if a DC voltage is detected.

**CAUTION:** Use extreme caution when checking electrical circuits to avoid injury due to electrical shock. FLIR Systems, Inc. assumes basic knowledge of electricity on the part of the user and is not responsible for any injury or damages due to improper use of this tester.
