

# IPD Wall Mounts

## Elegant & Practical Mounting for iPad® Mobile Digital Devices

Surface Mount

Flush Mount

### **SURFACE MOUNT**

*FSR's surface mount for iPad® mobile digital devices is the perfect solution for existing construction and installations where surface mounting is preferable.*

*The enclosure mounts to a standard 2-gang electrical box. The pattern of mounting holes allows the enclosure to be mounted either centered or off-center of the electrical box as well as in either the landscape or portrait position.*

*The 2-gang electrical box provides a place to install the PoE to USB charger to supply power to the iPad. The patented charger provides a full 10 watts of iPad mobile digital device compatible power to ensure uninterrupted service.*

*The cover features rounded corners for safety and aesthetics and is held closed by recessed security screws deterring theft.*

*The cover is available in either an aluminum, white or black finish and with or without access to the Home button and camera to support the specific needs of the installation.*

*The enclosures are available for the iPad 2,3,4, iPad Air 1,2, or iPad Mini 1,2,3 mobile digital devices.*

### **FLUSH MOUNT**

*The flush mount enclosure is perfect for new construction or installations where housing the iPad within the wall is desired.*

*The enclosure mounts within a standard 3" or 4" wall and houses the iPad in either the portrait or landscape position. The cover can be ordered with or without access to the Home button and camera to support the specific needs of the installation.*

*The enclosure has a space to hold FSR's patented PoE to USB charger. This charger provides a full 10 watts of iPad compatible power to ensure uninterrupted operation.*

*See ordering table on back for specific configurations.*
