

# LP-T6 LP-T6-FLEX

## Low Profile Table Box/ Retractor Packages

LP-T6

LP-T6 FLEX

### DESCRIPTION

The LP-T6 is a family of “low profile” table boxes that are designed to be used with the “low profile” retractors. Maximize your under table clearance with these elegant table boxes and the most reliable retractors in our industry. Round or square covers in black anodized are available; and easy mounting make this combo a perfect solution. These low profile table box/retractor packages offer a variety of interior configurations to handle all connectivity requirements.

For touchscreen control, the LP-T6-FLEX is another model in this low profile line. The 3.5” LCD touch screen is your choice for larger installations or where network connectivity is required.

Up to four low profile cable retractors can be added to the LP-T6 table boxes. These slim-style retractors are stacked in a side-by-side fashion and are parallel to the edge of the table. This maximizes under table clearance leaving additional leg room while seated.

### FEATURES

#### LP-T6

- Round or Square Covers available in Black only
- Easy mounting in a wide variety of tables
- Adjustable depth interior compartment accommodates longer/larger connector shells.

#### LP-T6-FLEX

- 3.5” Diagonal Color LCD Touch Screen
- 4 Serial Ports
- 4 IR Ports (Each Can Control up to 4 Devices), 4 GPIO Ports, IP Port
- Built In Clock / Calendar with Scheduler
- Multi Command Scripting Conditionality
- “Power over Ethernet capability”

#### LP-TBRT Retractors

- Low profile design ensures maximum under table space
- Easy stackable mounting
- Large variety of cable connector styles and colors available
- Retractor life greater than 8,000 cycles
- Convenient user access
- 6’ of cable pulls out from the top of the retractor
- 5’ of cable exits from the rear of the retractor under the table
