

SMART-WAY RACEWAY SYSTEM

Patent No. 10,862,283

FSR

Power Products Group

DESCRIPTION

The Smart-Way Raceway System is the intelligent choice for wire management. **It is now configurable for either on top of (vinyl, carpet, wood) or in any flooring (carpet, wood, tile, laminate) with the provided edging.**

The Smart-Way Raceway gets cables where they're needed. The Raceway is intended for offices, conference rooms, collaborative work environments, classrooms or anywhere wire management is desired. The Raceway compartments provide ample space for power, communications and A/V connectivity with the capacity to hold (14) 12 AWG (.130" diameter) power conductors, and (9) CAT 5E (.215" diameter), or (5) CAT 6A (.250" diameter) data cables.

The Smart-Way is only 0.6" high, ADA compliant, available in slate gray or aluminum finishes and is sold in sections. Its design includes centering V-grooves in the track to locate pilot/clearance holes for securing fasteners. Optional Elbow Kits are available to make 45 or 90-degree angles that will not compromise the minimum bend radius of the cables.

It's the most cost-effective and easiest way to get your power, data and AV across the room to where you really need it.

Our raceway can now provide you with that same functionality and aesthetic on your wall, with the wall raceway. The Smart-Way wall raceway offers a solution to transition from the floor to the ceiling with the same clean design. See LIT1860 for more information.

FEATURES

- Installs on top of or in any flooring for a quick installation
- Ultra-low profile • ADA compliant
- Competitive pricing
- Raceway compartments provide ample space for power, Communications, and A/V requirements
- Sold in 1', 3', 6' sections or in a 1'2'3' saw-less installation kit
- Available in slate gray or aluminum finishes
- Optional elbow kits for making 45 or 90-degree angle turns which will not compromise the minimal bend radius of wire
- Wall Raceway available. See LIT1860 for more information

Smart-Way Floor Mounted Raceway Load Capacity Chart

Component Type	Tire Load lbs.*	Axle Load lbs.*	Concentrated Load lbs.*
Raceway Straight Sections	8,000	16,000	1,500
Corner Fittings	2,500	5,000	1,000
Tee Fittings	1,500	3,000	1,000

*- Tire load test mandrel, rubber faced 16.5" x 4";

** - Concentrated load test mandrel, 3" round rubber faced.

Note:

1. Raceway mounted directly to a hard surface simulating an In-Carpet or On-Concrete installation.

2. The raceway is designed for light vehicle roll over and pedestrian traffic.

LIT1749M

Smart-Way Raceway Lengths

One end stop (SW-END) is required at the end of the Raceway.

18203	SW-T72-ALM	72" Raceway Aluminum
18204	SW-T72-SLT	72" Raceway Slate Gray
18297	SW-T36-ALM	36" Raceway Aluminum
18298	SW-T36-SLT	36" Raceway Slate Gray
18299	SW-T12-ALM	12" Raceway Aluminum
18300	SW-T12-SLT	12" Raceway Slate Gray
18301	SW-T123-ALM	1', 2', 3' Saw-less Installation Kit
18302	SW-T123-SLT	1', 2', 3' Saw-less Installation Kit
18478	SW-T24-ALM	24" Raceway Kit Clear Anodized Aluminum
18479	SW-T24-SLT	24" Raceway Kit Slate Powder Coat

Edging Installation

Each section includes a base and cover, couplers, moveable wire guides, raceway base edges, and a hex tool for installation.

Smart-Way Corners and Fittings

18207	SW-L90-ALM	90° Corner Aluminum
18208	SW-L90-SLT	90° Corner Slate Gray
18303	SW-L45-ALM	45° Corner Aluminum
18304	SW-L45-SLT	45° Corner Slate Gray

The Smart-Way corners come in either a 45° or 90° corner. Both corners are available in aluminum and slate gray. The corner kits transition the cables seamlessly around a corner without compromising the minimal bend radius.

Smart-Way Fitting Tee

18305	SW-TEE-ALM	Two Part Tee
18306	SW-TEE-SLT	Two Part Tee

The two part tee allows cables to go in both directions to reach the required destination without any complications.

Both outer power channels are used to deliver AC to each leg independently.

Visit www.fsrinc.com for detailed drawings and installation documents.

Smart-Way Device Boxes

INTERNATIONAL
VERSIONS
AVAILABLE!

18211 SW-DB-1P1D

2 gang device box with 1 power and 1 low voltage Decora opening, the divider is not removable.

SW-DB-1P1D

18212 SW-DB-2P

2 gang device box with 2 power Decora openings (NEMA spacing). Accesses the 2 outer channels only.

SW-DB-2P

18213 SW-DB-2D

2 gang device box with 2 low voltage Decora openings (NEMA spacing). Accesses the inner channel only.

SW-DB-2D

18214 SW-DB-2P1D

3 gang device box with 2 power and 1 low voltage Decora opening. The two power openings have NEMA spacing. The compartments access the appropriate track channels, can't be interchanged, and the divider is not removable.

SW-DB-2P1D

18440 SW-DB-2P2D

4 gang device box with 2 power and 2 low voltage Decora opening. The two sets of openings have NEMA spacing. The compartments access the appropriate track channels, can't be interchanged, and the divider is not removable.

SW-DB-2P2D

18215 SW-DB-1P2D

3 gang device box with 1 power and 2 low voltage Decora openings. The two low voltage openings have NEMA spacing. The compartments access the appropriate track channels, can't be interchanged, and the divider is not removable.

SW-DB-1P2D

18441 SW-DB-3P1D

4 gang device box with 3 power and 1 low voltage Decora opening. The three power openings have NEMA spacing. The compartments access the appropriate track channels, can't be interchanged, and the divider is not removable.

SW-DB-3P1D

International Device Boxes, Plate Inserts and Power Receptacles

18337 SW-IDB-2P

International Device Box with 2 openings for power inserts.

SW-IDB-2P

18338 SW-IDB-1P1D

International Device Box with openings for 1 power insert/1 Decora opening.

SW-IDB-1P1D

18339 SW-IDB-1P2D

International Device Box
with 1 openings for power
Insert/2 Decora openings.

Smart-Way Raceway with wall feed kit, power and data.

18320 SW-FCT-SLT

Surface mount conduit transition In-Feed with removable dividers. Its small design allows wires and cables transition from conduit to the Smart-Way raceway.

SW-FCT-SLT

Additional In-Feeds

18326 SW-PKF-SFIT4

Poke through to Smart-Way In-Feed. Allows power and data to feed the raceway through fire rated concrete floors. To be used with FSR 4" SF-CPT-FF-ALM poke through.

SW-PKF-SFIT4

POKE-THRU SOLD SEPARATELY
FSR POKE-THRU: SF-CPT-FF-ALM
HUBBLE POKE-THRU: S1R4PTFFALU

18328 SW-DB-HPP

Power Pole to Smart-Way In-Feed. Feed power and data to the raceway from the ceiling with a power pole. To be used with Hubbell aluminum service pole HBLPP-.

SW-DB-HPP

Smart-Way Installation Accessories

18206 SW-END-SLT Raceway End Stop - Slate
