iPad® Wall Mounts and Chargers

The iPad® wall mount is designed for strength, practicality and elegance, that fits both the iPad 2 and new iPad. There is no visible hardware, and we use tamper resistant hardware for security. Symmetrical hole patterns provide rapid mounting in portrait or landscape mode. Attractive openings for cable egress are provided. Standard colors are silver and black. As an added value we will print a client logo on the front FREE with orders of 10 pieces or more.

The Perfect POE/USB Charger

You can power and charge the iPad from a POE-Ethernet drop without the need for AC line power. Mount this small cube in a 2-gang wall box behind the FSR iPad wall mount. The PoE / USB charger will operate and charge the iPad supporting Apple®'s charging standard. The PoE / USB Charger will also notify the iPad that it is connected to a charger avoiding annoying pop-ups.

DC Powered USB Chargers

Our DC Powered USB chargers for your smart devices come in a variety of form factors to meet your requirements. The chargers incorporate the necessary firmware to communicate with your device and provide it the correct charging wattage, up to a full 12 watts. All models come complete with a universal power supply.

Add an FSR Floor, Table, Ceiling Box or LITE-it

Floor Boxes

Match your table box with one of our elegantly constructed floor boxes. Our ADA friendly boxes provide a safe and practical approach to connecting audio, video, power, data, and more!

UL and Scrub Water Rated FL-500P (installed in carpet over concrete)

Table Boxes

Elegantly mount any gooseneck microphone with this T3-MJ mini table box. Available with one or two control buttons for momentary or maintained controls.

T3-AC2 table box is essential for convenient table top access. The 3½" stylish box can be matched to any décor.

Patent Number US 6,881,080 B2

Patent Number US D553,306 S

Ceiling Boxes

Eliminate those unsightly equipment boxes hanging off the projector poles or mounted to your walls. These enclosures allow you to conceal your equipment neatly out of sight behind a hidden door that allows you to insert matching ceiling tiles.

Introducing the CB-244 Series.
Deeper box design to carry a pull-down 4-RU rack cage that is 12" high, and capable of carrying 25 lbs. of electronic equipment. Available in 4 versions: non-pole mount and pole-mount, both with or without "smart" electronics.

LITE-it **NEW**

THE LITE WITH A BRAIN

LITE-it easily provides lighting in floor, wall and ceiling boxes, or anywhere a work light is needed. LITE-it can be used with all our Core Solutions. Add LITE-it to every box!

SmartFit™ (Poke-Thru)

It's Not Just Power Anymore

FSR SmartFit is an innovative system that provides flexible power and AV solutions for fire rated poke thrus'. The SmartFit system features a universal cover assembly and multiple sub-plates that install on the fire rated poke thrus' and are now available in 4", 6" and 8" sizes.

The system offers three architectural finishes: Aluminum, Brass and Black providing an attractive appearance with superior durability.

With the SmartFit system, FSR delivers one consistent look for installations with power and audio/video requirements. There are sub-plates available in the SmartFit line, a Dual Decora and 3-IPS-insert sub-plates.

Raised Access Floor Boxes

All metal construction provides for one or two cable access doors, or a solid metal cover. Standard trim colors are gray, black or clay.

Where Technology Connects

Wall Boxes

Protect and Secure Your Infrastructure Connections

WB Series Wall Boxes

The WB Series is an effective way to secure and protect wall plates and data plates with multiple network connections.

FSR's Wall Box series offers 18 different models to fit a variety of applications. Recessed and surface mounts are available for new or existing construction as well as solid door or window versions. Rugged yet attractive, the WB series is an effective way to secure and protect wall plates and data plates where multiple control, data and AV access points are necessary.

WB-PS4G

WB-MS1G

WB-R2G

WB-MS2G

WB-3G/4G

These AV wall boxes are available in two sizes, either a standard three gang plate or a standard four gang plate.

The appropriate blank plate is supplied with each wall box.

WB-4G

WB-500-JL

WB-500P-JL

These larger wall boxes utilize the same back boxes as the FL-500P and FL-600P with plenty of room for connectors and cables. The small door flips back allowing the cables to pass through while the main door is locked.
SMWB Surface Mount Boxes

Designed for mounting of standard gang devices and plates. These rugged utility boxes can be used to conveniently mount accessories from FSR and other manufacturer's controls, switch panels, keypads and IPS wall plates. Available in 1-gang thru 4-gang in black or white textured paint.

WB-X Series

Large Capacity Wall Boxes with Safe, Secure Cable Management
WB-X3-GNG   WB-X2   WB-X1   WB-X3

There are three back box styles that are currently available in three different connector capacities for a total of nine possible configurations.

The internal connector mounting plate styles handle either standard gang plates, FSR's huge assortment of IPS inserts or "XLR" type connectors.

The WB-X IPS and XLR style back boxes have tapped holes on the connector mounting plates for easy connector mounting and are painted black. All back boxes include installation brackets for mounting in old or new construction.

LITE-it - The Light with a Brain

NEW

LITE-it easily provides lighting in floor, wall and ceiling boxes, or anywhere a work light is needed. LITE-it can be used with all our Core Solutions. **Add LITE-it to every box!**
Intelligent Plate Solutions

An attractive yet functional element worthy of even the most luxurious architectural environment.

Our Intelligent Plate Solutions family of Audio, Video, and Data interface products offer a diverse assortment of sleek wall plates and under table mounting styles with unlimited combinations of inserts available. Several wall plate opening styles accept IPS inserts. Other styles also accept FSR's Active and Passive Interface components along with Simple Solutions Decora™ products.

The IPS wall plates are manufactured using a very high quality 1/4" thick milled aluminum and are designed to have the IPS insert fit flush when installed. The system components are easy to assemble and install quickly with all the required hardware provided.

Visit our web site and drag and drop your solutions with IPS Designer. A printable parts list is created automatically.

All FSR Table, Floor, Wall and Ceiling Boxes CAD drawings are available on our DVD. For your FREE COPY, or for assistance in selecting the proper box to hold your power, data, voice, video, please call us at 1-800-332-FSR1 (3771).

Manufacturer Specific Solutions

FSR is now offering several "MMS" (Manufacturer Mounting Solutions) PWB housings. All models have the same basic features and include bracketry for specific manufacturer's components as listed under each model. These are designed to quickly and easily install behind a wall mounted display or a projector. The component and power supply are mounted to a removable bracket which is then mounted to the PWB back box. The back box is typically installed flush with the wall's surface, between either wood or steel studs. Mounting screws are included. A duplex box is also included and can be mounted at either the top or bottom duplex area on the back box. There are two 1" and 1.25" concentric knockouts on the top and bottom for cable/conduit entry. Built in cable tie slots with ties included.

Flat Screen Wall Boxes

New Expanded Line

Every wall-mounted flat screen needs a PWB! Mount a PWB in the wall and end the messy hanging cables! Power, data, interfaces and more mount discretely behind the flat screen. Covers are available in white or black. A variety of boxes, including versions to handle 3-inch walls, are in stock. Neat and efficient cable management is just a PWB away.

PWB-200
PWB-203 For 3" Walls

PWB-250
PWB-253 For 3" Wall

PWB-100

PWB-353

NEW

The PWB-353 Wall Box has the characteristics of the PWB-253 but has an open face design. A white interior with an extended trim ring, rather than a cover, provides easy access to the interior. The extended trim ring provides a clean appearance covering rough cuts in the sheetrock.
