

# Meet the Largest Pipe Clamp Ever Made: The TC48

**The new TC48 pipe clamp is large and in charge** – a perfect match for any commercial, refrigeration or residential/light commercial HVACR pro in search of lightning-fast precision readings without the inconvenience of straps, tapes or zip ties.

This innovative state-of-the-art new clamp lets you measure pipes up to 4 1/8" in diameter with just one hand, and thanks to our patented Rapid Rail™ Sensor Technology—which uses electrically conductive pipe to complete the circuit – you get 100% accuracy in an instant.

With the widest pipe clamp range available (3/4" to 4 1/8"), size isn't the only thing the TC48 offers:

- Tangle-free 6' cord means no more crouching or squatting
- Compact design for easy storage
- Waterproof, rugged and built to withstand the rigors of field use
- Single-hand operation with comfortable, ergonomic grip
- Fast set-up and reaction time; stabilizes in seconds
- Wireless Large Pipe Clamp coming soon

Model - TC48
