FLUKE®

By: Frank Healy

Date: December 7th, 2016

New Fluke 1750 Windows 10 Tablet New Windows 10 Tablet for Control, Setup, Data Download and Analysis with Fluke 1750 in the Field now included

New Fluke 1750 Models for 2016/7:

Fluke 1750/ET models will include:

- Lenovo Miix 310 Windows 10 tablet (or similar) with:
 - 10.1" touch display
 - 2GB RAM
 - 64GB SSD (disk storage)
 - Power supply
 - USB/Ethernet adapter
- Fluke Power Analyze installed

This new tablet runs the full version of Fluke Energy Analyze for instrument setup in the field and downloading with basic analysis. Setup and download is made by connecting the 1750 to the tablet via a wired Ethernet connection. The tablet has a detachable keyboard with two USB ports the supplied Ethernet adapter connects to the one of these USB ports and then to the instrument via a standard Ethernet cable.

The existing 1750 models and the Galaxy Tablet is now discontinued.
