## Introduction

The Fluke 64 Max IR Thermometer (the Product) can determine the surface temperature by measuring the amount of infrared energy radiated by the target's surface.

### Warning

**Read all safety information before you use the Product.**

**3-Year Limited Warranty. See the Users Manual for the full warranty.**

Go to [www.fluke.com](http://www.fluke.com) to read the Users Manual and find more information about the Product. To register your product, visit <http://register.fluke.com>. To see, print, or download the latest manual supplement, visit <http://us.fluke.com/user/support/manuals>.

## Safety Information

A **Warning** identifies conditions and procedures that are dangerous to the user. A **Caution** identifies conditions and procedures that can cause damage to the Product or the equipment under test.

### Warning

**To prevent eye damage and personal injury:**

- **Read all safety Information before you use the Product.**
- **Do not use the Product if it operates incorrectly.**
- **Use the Product only as specified, or the protection supplied by the Product can be compromised.**

- **Before you use the Product, inspect the case. Do not use the Product if it appears damaged. Look for cracks or missing plastic.**
- **See emissivity information for actual temperatures. Reflective objects result in lower than actual temperature measurements. These objects pose a burn hazard.**
- **Do not look directly into the laser with optical tools (for example, binoculars, telescopes, microscopes). Optical tools can focus the laser and be dangerous to the eye.**
- **Do not look into the laser. Do not point laser directly at persons or animals or indirectly off reflective surfaces.**
- **Replace the batteries when the low battery indicator shows to prevent incorrect measurements.**
- **Do not use the Product around explosive gas, vapor, or in damp or wet environments.**
- **Use the Product only as specified or hazardous laser radiation exposure can occur.**

**⚠ Caution**

- **To avoid damage to the Product, do not leave the thermometer on or near objects of high temperature.**
