LED Specifications are as per the TouchIT LED Duo product

## WHY CHOOSE AN INTEGRATED PRO UNIT?

- Windows 8
- Nothing to connect to your LED, its all pre-cabled for you when you order a Pro.
- Server Grade Hardware
- i5 Processor for powerful performance
- 42" to 80" Available

## WHY CHOOSE LED?

An LED:

- has more vivid colors
- is generally lighter in weight
- has lower power Consumption
- is greener and more environmentally friendly

## HIGH DEFINITION

Our range of LED Displays are all High Definition displays.

- 1920 x 1080 Resolution
- Full HD

## NEED STANDS AND MOUNTS?

Check out our range of stands and mounts for the LED Range - table top and wall mounts also available
