## *Video Pipe Inspection System*

### **Put pipe inspection in the palm of your hand.**

The Gen-Eye Micro-Scope handheld inspection tool has a bright, easy-to-see 3.5" LCD screen for crisp clear pictures. You can record photos or videos on the built-in SD card reader with one-touch record button for playback on the internal screen, TV, or laptop computer through a USB port.

The Micro-Scope reel carries up to 100 ft. of micro push rod with a color camera, giving you the ability to inspect 1-1/2" to 3" drain lines, and many toilet traps.

A 3 ft. probe rod with color camera lets you inspect in hard to reach places. Three adapters are included to improve your viewing angle or to retrieve objects. Probe extensions are available.

The Micro-Scope Command Module is loaded with lots of great stuff, including a digital zoom, rotatable picture, voice over recording capability, and LED brightness control. On-screen status indicators include date and time, SD card capacity, and battery strength. The rechargeable battery drives the unit for up to four hours.
