

# Gen-Eye Vista™

## Pipe Inspection/Location System

### Compact, all-in-one design.

The Gen-Eye Vista™ has everything you need for video inspection in a compact, portable package. It includes both a DVD recorder *and* an SD card reader, all in one. Record crisp video or still images at the jobsite on both devices simultaneously. Keep one copy for your records and give a copy to your customer. If you'd rather transfer a file of the inspection to a laptop on the spot, a USB port is included.

In a remote location? The Vista includes a built-in rechargeable battery that lets you operate in the field on battery power alone for up to 4 hours. With the built-in AC/DC converter, you can recharge the battery while driving from one job to another.

The Gen-Eye Vista includes an 8" LCD color monitor, a full keyboard for on-screen titling, on-screen distance counter, built-in voice over unit, date and time stamp, LED dimmer control, camera test port, and both AC and DC power cords. All are safely contained in a padded 24 lb. case that can stand alone or be mounted on a reel.

The self-leveling color camera automatically keeps your picture right side up as the camera glides through the line. You always have an upright picture on the monitor, making it easier for you and your customers to follow the action.

The fully adjustable docking arm mounts onto a big capacity reel loaded with Gel-Rod™ push rod and a color self-leveling camera. With this easily maneuverable, all-in-one package you're set to trouble-shoot 3" to 10" lines. You can even mount the Vista onto a mini-reel to inspect 2" to 4" lines.

### Skid designs

**Skids keep the camera** centered in the pipe for a better view, while reducing drag on longer runs. Standard systems include both 3" and 6" trap skids that protect the camera from abrasion as it slides through cast iron traps. Optional 3-in-1 skid set for 4", 6" and 8" lines, and Universal Roller Skid for 6" to 12" lines are also available.

**Built-in voice over unit**  
Internal microphone and on/off switch lets you add commentary to your videos.

**Built-in AC/DC converter**  
Allows you to operate in the field with truck power alone.

**DVD Recorder**  
Record crisp video images. Record simultaneously on DVD and SD, then keep one copy for your records and give a copy to your customer.

#### **Date and Time Stamp**

You can document the date and time of each job for your records.

#### **On-screen distance counter**

Lets you keep track of how much push rod you've fed into the line. Switchable between standard and mini reels.

#### **SD Card Reader**

Records video or still images. One GB card records about two hours of video.

#### **Rechargeable Battery**

Operate up to 4 hours on battery power. Includes battery level indicator and low battery alarm.

#### **USB Port**

Allows you to connect to an external computer to download videos or record directly to hard drive.

#### **Titler with full keyboard**

You get up to nine pages of text to add your company name and job location to each video you make.

#### **Other features include**

Internal 512 Hz transmitter, dimmer control, camera test port, 3" and 6" trap skids, and storage compartment for power cords, tools, and remote controls.

### **Gen-Eye Vista™ Units**

**GV-600** Gen-Eye Vista Command Module, complete with 8" LCD Screen, DVD Recorder, SD Card Reader, Full Keyboard, Battery, and USB Port.

**SL-GV-A** Gen-Eye Vista Command Module with Docking Arm, 200 ft. Push Rod, Full Size Reel, Self-Leveling Color Camera, and 3" & 6" Trap Skids.
