

Desktop Protective Screen / DPSC24XX-XS

2 & 3-Sided Unit

Installation Instructions

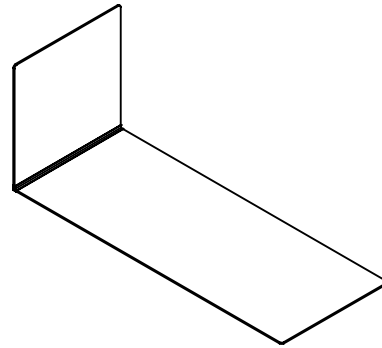

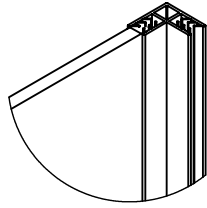

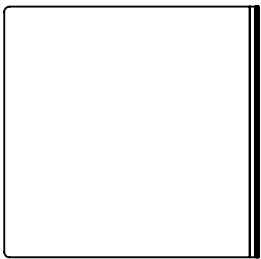

Step 1: Remove and unpack the Panels, Angle Connectors, and Feet.

Note: 3 sided units with main panels larger than 47" are provided with (4) feet.

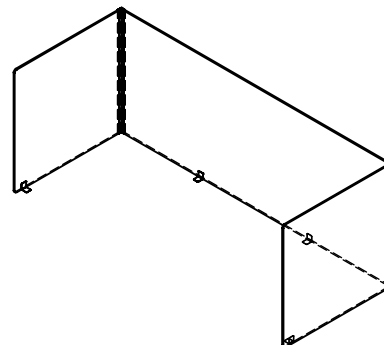

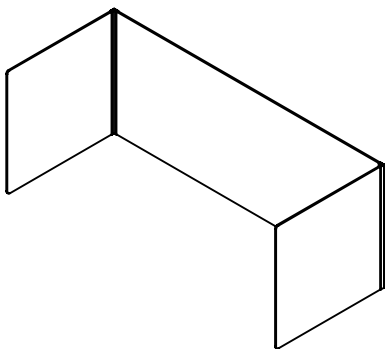

Step 2: Press the Angle Connector onto both Side Panels as shown. Use a rubber mallet to seat the Angle Connector onto the Panel. Do not use a hammer.

Step 3: Lay the Large Panel onto a clean flat surface. Press the Angle Connector onto the short side of the panel as shown.

Step 4: Stand the assembled Side Panel(s) onto a flat surface. For 3 sided units, add the second Side Panel. Align bottom of panels with table surface.

Step 5: Remove the tape backing from Feet and attach one to the bottom of the Side Panels as shown. Repeat for remaining panels. Clean and dry the tabletop before adhering the tape to the tabletop.

Step 6: Recycle all packaging in accordance to local regulations.
