GSC-DL020

# Sequential Logic Design Trainer Student Text w/ Lab Manual

Applications

The GSC-DL020 works with the Global Specialties DL-020 trainer and is ideal for:

- Educational labs
- Hobbyists
- Technical Schools

Overview

The GSC-DL020 lab manual is an ideal classroom solution enabling self-guided student learning for embedded system design. The step-by-step training manual features an overview of digital logic and hands-on labs enhancing any textbook currently in use.

Features

- 12 Hands-on labs
- Covers basics for combination digital logic design including TTL
- Easy to use logic design without discretely-wired IC's
- Available in hard copy and electronic through iTunes.
