

A-WNB-LEADSET

Voltage Input Lead Set

A voltage lead set with alligator clips that is used to wire a WattNode terminal block connected to a WattNode KWH transducer and the voltage terminals in a circuit breaker panel.

Key Advantages:

- Prewired to WattNode terminal block
- Precludes mis-wiring to KWH transducer
- No need for user to choose and supply own wiring
- Safety and convenience

HOBO A-WNB-LEADSET Specifications

Colors (cables and clips): Black, blue, green, red, white

Alligator clips: Insulated nickel plated brass, sheathed banana plug receptacle

Cable length: 5 feet

Suitability: Single phase circuits 120-277vac, and three phase circuits 208-480vac.

Temperature rating: -25 C to 80 C

Electrical rating: IEC 61010-031 @ 1,000V CAT II , 600V CAT III P2
