Description/Title:
New HAKKO FT-720 Tip Cleaner

Part No:
FT720-03

Specification:

Tip Cleaner	
Model	FT-720
Rating	24 VDC 140 mA
Brush Rotation Speed	1670 rpm
Dimension	67 (W) x 63 (H) x 94 (D) mm (2.6 x 2.5 x 3.7 in)
Weight (w/o Power Adapter)	200 g (0.44 lb)

Power Adapter	
Output	24 VDC 200 mA 4.8 W

Comments:

The new HAKKO FT-720 Tip Cleaner provides quick and effective cleaning of soldering iron tips with sensor activated counter-rotating brushes, which remove tip oxides, debris, and excess solder without damaging the tip plating. The FT-720 is equipped with long life fluoroplastic brushes that minimize temperature drop of soldering iron. The brushes are easy to remove and replace, with optional resin and metal cleaning brushes available.

The sensor on FT-720 has covers that are easy to remove, clean, and replace, maximizing the life of the sensor. The front opening of the FT-720 has a removable adjuster to accommodate a variety of tip shapes. The housing is ESD safe and can be mounted to existing FH-200 iron holders in place of the sponge/tip cleaner tray.
