Comments:

The FT-802 Thermal Wire Stripper with Hot Knife comes with the FT-8003 Hot Knife handpiece and holder. This bundle allows users who prefer to use the hot knife over the standard FT-8004 Wire Stripper handpiece. The FT-8003 handpiece will have the same performance when used with the FT-802 when compared to being used with the FT-801. Similar to the FT-801, this station comes with the holder and connecting cable required for sleep operation.
