## Software Features

### IMPORT

Import a variety of documents into the software, including Microsoft® Office®, PDF, and multi-media files, enabling instant markup. Save your work to share with colleagues or for future use. You can also embed and annotate over motion video, adding dimension to your digital lectures and presentations.

### CUSTOMIZE

Add external files and applications to the software toolbar, with the option to save it for future use. You can expand or collapse the toolbar and adjust its height and orientation based on your preference. Work in full-screen mode or add in multiple menu options for more accessibility.

### ANNOTATE

With the StarBoard Software's virtual printer, you can transfer any file to your whiteboard page to review and markup with digital ink. The print to StarBoard feature gives you the option of editing and saving your work in a variety of file formats, such as JPEG, PDF, or PPT for ultimate compatibility.
