

PROTECTIVE 3 LAYER FACE MASKS

ARE YOU PREPARED?

Experts warn that a second wave of COVID-19 is possible. Protect your family and yourself as the nation reopens with our disposable 3 layer protective face masks.

HOW OUR PREMIUM 3 LAYER MASKS WORK

Layer 1

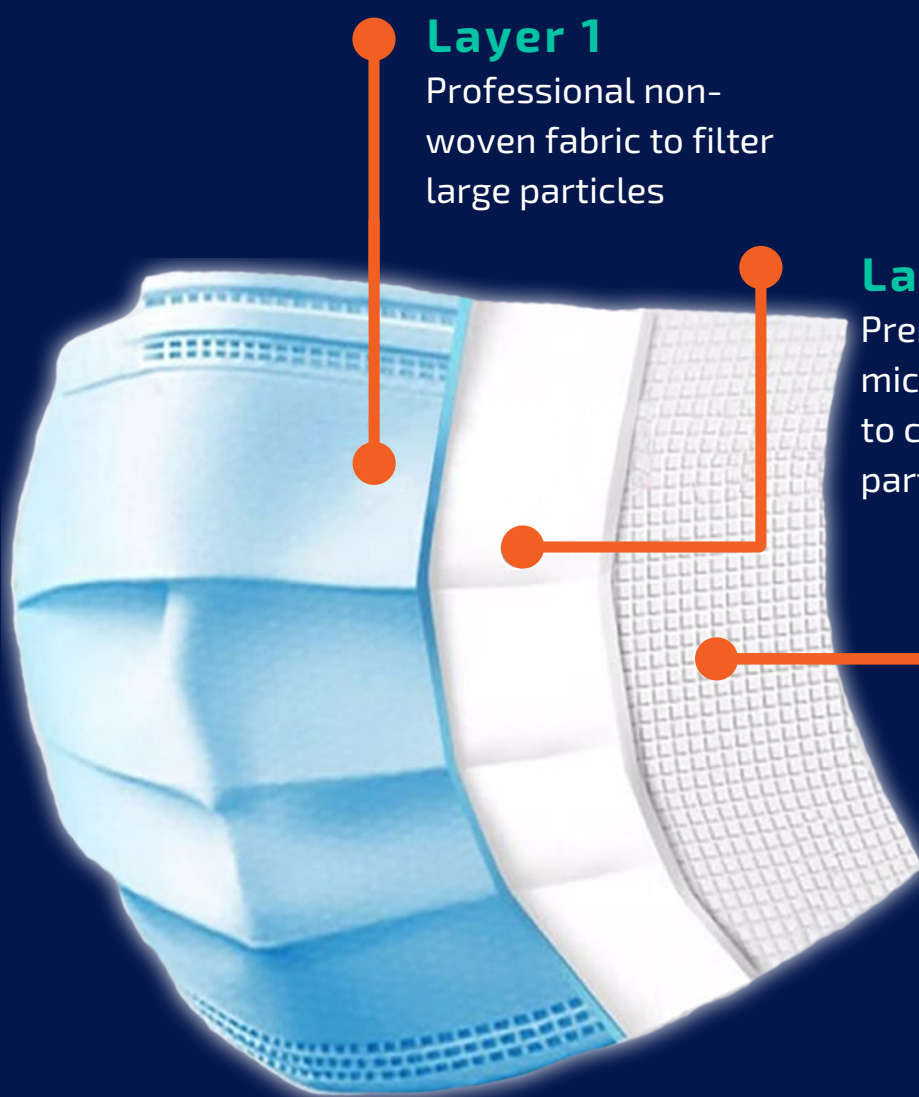

Professional non-woven fabric to filter large particles

Layer 2

Premium melt blown micron particle filter to capture small particles

Layer 3

Hypoallergenic non-woven fabric. Easy on the skin and provides an additional layer of filtration.

MASK SPECIFICATIONS

DETAILS MATTER

3 LAYERS

Defense in Layers

Our masks are thicker and made up of 3 layers to capture most particulates. Masks use non-woven, hypoallergenic fabrics for comfort.

QUALITY CONTROL

Inspection Counts

Each batch of masks are inspected and quality controlled, a label is included in each box.

THE STANDARD

Daily Protective Masks

Masks are compliant to executive standard GB/T 32610/2016, the technical specification for daily protective masks.

IN STOCK IN THE USA

Items Ready to Ship

We take great care in shipping your products and do an additional round of quality control. Our employees wear gloves and face masks during the entire process.

DISPOSABLE NON-MEDICAL USE

Doing our part

These masks are disposable, we recommend using up to 4 hours or as you see fit to avoid exposure to any particulates that may have attached to the mask.

These are non-medical masks. At this time we are not carrying or selling medical masks to avoid tapping in to the world supply.
