

INF7530 Series

JTouch Plus Part #: INF7530eAG, INF7530AG

The most education-friendly JTouch ever

With 4K resolution, Total Touch Control, built-in education features, and the ability to natively run Android apps, the JTouch Plus INF7530 Series is an all-in-one teaching, collaboration, and presentation solution.

Key Features & Technologies

- Friendly, easy-for-anyone interface with Total Touch Control – no need for a remote
- Built-in whiteboard, browser, media player, and AirPlay capability
- Annotate over any application, video input, website or document
- Brilliant 75-inch, 4K resolution anti-glare screen
- Add Android apps
- Customize your whiteboard background

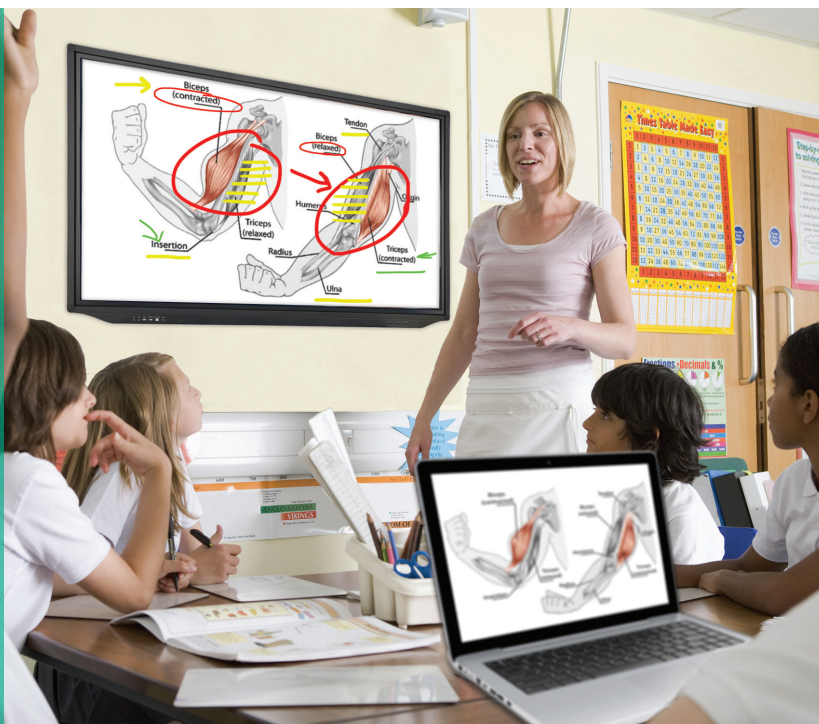

Open Android Platform

Expand and customize your platform with any Android application or game. Simply download and install much like you would on your phone.

Embedded LightCast

All the features of LightCast technology are built into the INF7530 Series. Create on a digital whiteboard, present videos and photos, browse the web and easily connect and share from your Apple, Windows, or Android devices with wireless casting.

Intuitive Touch

Erase, zoom, and pull up menu options with incredibly intuitive touch gestures. Use one finger to draw, two fingers to move, and three fingers to erase on the whiteboard or when annotating. A simple swipe on either side of the screen reveals a full menu of further options.

Interactive Digital Whiteboard

Create a fully customizable background on a multi-screen canvas with room for free-form drawings, diagrams, and more. Draw using your finger or one of the provided styli using a complete collection of digital pens, highlighters, shapes, lines, and colors.

Multi-input Monitor

Plug up to eight devices into your monitor. HDMI-based sources can also connect via five separate USB-B ports to access the panel's touch control. Front access IO ports make it convenient to connect, view, and touch control any user's PC temporarily with both HDMI and Touch USB.

Optional PC

Expand your INF7530 Series display with the full power of Windows 10 by adding the optional Core i5 OPS PC Module (coming soon). Turn your display into a fully integrated, powerful all-in-one touch PC.

Specifications*
