

# Mondopad Software

INS-MPULTRA4

Add the latest Mondopad Software to your PC Module on an InFocus JTouch display and video conference, whiteboard, share data, plus more - all from one seamlessly integrated platform.

## 1 YEAR SUBSCRIPTION

Full Mondopad software platform providing the agnostic interface for customisation where needed or use the default apps and setup for a quick out of box solution. The subscription includes the stand out features:

- Direct 1:2:1 Video calling to another SIP or H323 device
- 50 seat video meeting room with unlimited minutes
- Whiteboard cloud collaboration with other Mondopads or devices using ConXBoard software
- InFocus email account for out of box sending/receiving files to the document library
- Software updates during the subscription period

**MondoRoom**

Quick launch the Office 365 web page and use your Mondopad mobile app to login securely. Immediate access to all your documents and familiar 365 applications

Quick launch the Google package and use your Mondopad mobile app to login securely. No hassle with compatibility or permissions

Share documents directly from your own device with AirPlay, LightCast 2 or Chrome browser

Brainstorm in meetings and capture all notes and add images to the whiteboard before saving or emailing to participants

Use your favourite Video platform such as Teams, Skype, Zoom or use the Integrated video service and MondoRoom meeting room.

Built in Web browser for easy access to pages and reference sites used for meetings and presentations
