Mondopad™ 2.0

Easier Video Conferencing. More Powerful Collaboration.

InFocus
Collaboration That Works

Mondopad 2.0 is the biggest leap forward in collaboration features, tools and services InFocus has ever provided. Whether it's site-to-site meetings or a quick brainstorm, Mondopad 2.0 makes them easier and more productive. Plus, qualified Mondopad users can upgrade for free!

Key Advancements & Benefits:

- Share content and faces side by side
- Expand workspace to a second display
- Add a 3rd or 4th person to a conference
- Collaborate with more people and devices
- Whiteboard with auto-shapes
- Continuous whiteboard canvas
- Two web browsers
- Manage ConX Video Meetings from the web

Dual Screen

Connect a second touch display (such as JTouch) to a Mondopad and create a massive interactive space, including the use of two apps at the same time.*
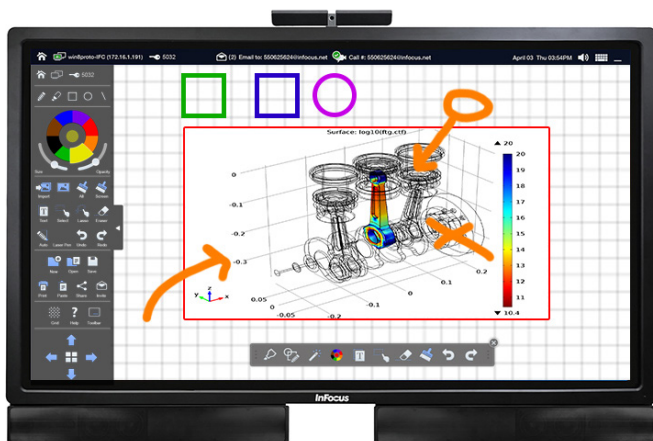

Dual Stream

Have more effective meetings when everyone can see each other's faces and content, at the same time.

* Dual Screen feature requires a Mondopad with an i7-based PC. PC upgrade available (part #: PC-I7-4770TM)

Instant Multi-Party Conferences

Mondopad 2.0 makes it easy to add a third person or fourth person to a 2-person video call with the touch of a button (121 Premium service required).

Collaborate with More Devices

Mondopad 2.0 is BYOD-ready with new possibilities for cross-device collaboration.

Cast, control or join a conference from your device.

Whiteboard Without Borders

Auto shapes, a continuous canvas, and more new tools make the Mondopad's whiteboard the best way to brainstorm and capture ideas as they happen.

Mondopad 2.0 includes 100+ features and improvements all to help people collaborate better.

Services Get Boosted for Mondopad 2.0

Mondopad 2.0 makes it even easier for you to make video calls and have video conferences with InFocus 121 Video Calling and ConX Video Meeting services.

- Invite, host and control a ConX meeting from a single web interface
- Make calls and join conferences from any web browser
- Transfer calls from Mondopad to a ConX meeting room
- Instant 3-way or 4-way video calls from a Mondopad
- Create a custom SIP address
- Leverage a company's brand on their SIP addresses

More Powerful Hardware

All Mondopad sizes (57-, 70- and 80-inch) now come with the same hardware to seamlessly power Mondopad's collaboration features and third-party apps.

- Intel i7 processor and 8GB RAM
- Bluetooth
- HDMI video out
- Wide-angle USB 3.0 camera

Ask your reseller when and how you can get Mondopad 2.0.
