- SIP-based desk video phone with 10.1" HD display and 720p camera
- Optional InFocus headset available

8 BigConnect Video Calling Software

Part #: INS-BCONNECT

- Turns your Windows PC into a SIP video endpoint
- Share your desktop or specific application

Solutions: Conference Room

Connect face-to-face with colleagues & customers in business-class HD quality with the ease of dialing a phone.

HD Video Dial Tone Service

InFocus 121 Video Calling is the HD video equivalent to your phone service. It's complimentary for the first year with your new InFocus Mondopad, MVP100 Video Phone or BigConnect software.

121 Basic Service

- Make or receive calls with any SIP or H.323 address regardless of the video conferencing service they use
- Business-quality video calling that's reliable and easy to use
- Unlimited video calls for a year for about \$25/month (USD)

Choose 121 Premium Service to:

- Instantly Add a 3rd or 4th Person
- No Additional Equipment Needed
- Upgrade to a Custom SIP Address featuring your domain

Try 121 Video Calling for free at 121.infocus.net or by downloading the InFocus 121 Dialer app.

Video Meeting Rooms for up to 25 Callers

Join people together in a ConX Video Meeting any time you need. Participants can call in from a SIP/H.323 device, an audio-only phone, or from their computer's web browser. The owner of the ConX Video Meeting Room can host an HD video meeting with anyone at any time, regardless of the device they're using.

Participants can see each other's visual queues and also share their screen, making collaboration easy, effective, and secure.

Subscriptions are available for up to 6, 12, or 25 participants, ranging from 1-3 years in length.

Try ConX HD for 30 days free!

Save Time and Money

Collaborating with InFocus products and services helps you get more done in less time and saves money in the process.

- **Face-to-face communication** is the most efficient way to share ideas and solve problems. Visual queues and body language add meaning, and sharing visuals (and even annotating on them) clearly conveys vital information.
- **Reduce or eliminate travel time and cost** while still maintaining personal and effective face-to-face communication
- **Save thousands & be more flexible** with InFocus solutions over other business-class systems from Cisco, LifeSize, Polycom and others
- **Engage audiences & encourage participation** with big, bright multi-touch displays
- **Hear and see everyone clearly** with several Mondopad audio and video options to fit your meeting room and the equipment you already own
