IND6565

InFocus

Professional HD Display with built in Document Presentation and LightCast Ready
Part #: IND6565

The 65-inch InFocus ShareView uses cutting-edge technology to engage your audience and fit your budget. Simply connect your PC, Mac or Chromebook for a bright, colorful display experience via HDMI/VGA or the wireless functionality of LightCast*.

North America only. Available through select resellers only.

Key Features

- 65-inch 1080p display is bright and crisp in any light
- Sleek edge-to-edge glass design
- Add the [LightCast Key](#) to wirelessly cast from any device, browse the web, or view documents
- View and present documents, videos, and photos
- Easily access HDMI and USB ports on the front of the display
- Display a PC, Mac, or Chromebook via HDMI
- Keyboard and mouse included

*Wireless casting features of LightCast enabled when [LightCast Key](#) is inserted into any USB port.

Go Wireless with LightCast Technology

Easily connect and share content from nearly any computer or mobile device and make meetings, lessons and teamwork more efficient and engaging. The LightCast Key works with your device's native protocols — AirPlay (Mirroring mode) for Apple, and Miracast for Android or Windows. Or use the InFocus LightCast Sender to cast using Chrome extension on Mac, Windows, or Chrome OS devices.

Document Viewer

View and present Office files, like PowerPoint, Word, and Excel, as well as most photo and video file formats, directly from the display. Easily annotate with digital pens, highlighters, and shapes, then save and share your files after the meeting is

done. A built-in laser pen makes it easy to guide the audience's attention during your presentation.

Browser

LightCast enables quick and easy access to online content without a connected computer. Simply connect the display to your network via LAN or WiFi and get easy access to the internet, favorites and bookmarks, online curriculum, and file-sharing platforms – then annotate directly over the web.

Whiteboard

Create a digital whiteboard on a multi-screen canvas with room for free-form drawings, diagrams, and notes. Write or draw

with a complete collection of digital pens, highlighters, shapes, lines and colors, paste images, and annotate your content. Save your notes electronically so you never lose an idea again.
