Safety Cap for
B-IRON Handles

www.jbctools.com

Features

Safe Tool Transportation

Thanks to the tool's safety cap, B-IRON tools can be carried around safely, even with the cartridge inserted.

When the cap is placed onto the tool, it goes into Hibernation Mode immediately and the cartridge tip cools down to room temperature.

Status Lightband:

If the cap is placed onto the tool, the status lightband does not display any color (no light).

Safety Cap Holder

While the tool is in use, the safety cap can be stored on the cap holder located on the back of the charging base.

There is space for two caps.

Note: The purpose of the cap is to allow safe transport, not storage.
