

IR Preheater Support

PHS-SA

This support is **perfectly adapted** to any type of PCB by means of its many adjustable parts.

It allows you to properly position PCBs of the same batch so as to always heat the same area. This means you **save time** and **optimize workflow**.

The PH321 incorporates several slots for a total alignment to the [PHS-KB IR Preheater Set](#).

The user can **modify the height** of the support (75 mm or 96 mm) according to the working needs.

It is also possible to use the 4 black rubber caps for reworking large PCBs.

Specifications

Net weight	1,99 kg (4.39lb)
Dimensions	267 x 259 x 75 mm (10.51 x 10.20 x 2.95 in)
High position	267 x 259 x 96 mm
ESD safe connector	
Package weight	2,71 kg (5.97lb)
Package dimensions	368 x 368 x 125 mm (14.49 x 14.49 x 4.92 in)
