New Options for 15, 30, and 40 Devices  
Now Starting At \$995

Charge, secure, and transport  
up to 40 devices of any variety.

MD-5130-SMART

MD-5140-SMART

## Efficiency on a Budget

- Our **easily upgradable 30 configuration** allow you to get only what you need now, but still be able to add on in the future if your needs change.
- Easy to use, dependable charging and sturdy all-steel construction make this cart an **economical solution for large and small class sizes alike.**

## Easy to Transport

- Secure and transport 15, 30, or 40 devices with ease. **Weighs in at over 100 lbs less than other carts.**
- Features top and bottom handles and 5" industrial grade casters for easy maneuverability over different floor surfaces and thresholds. **Great for bringing tech to modular classrooms.**

## Best in Class Charging

- **Power sensors and charging logic** deliver the fastest possible charge and you never have to worry about tripping a circuit breaker.
- **LED status indicators** tell you how long the devices take to charge, which devices are receiving power, and when charging is complete.

**Five-Year Warranty** See Back >>

# Get the Features you Need and Save.

The Ultra-Light Intelligent Cart 40 now also comes in 30 and 15 user configurations! The new cart with smaller frame is a customizable solution, available with or without Intelligent Charging. This allows you to get the quality and service you expect from JAR Systems at an entry-level price and you can always upgrade the cart later with the charging system or additional shelving, should your needs change.

Carts ship fully assembled and ready for loading.

## Flexible Option For All Environments

If you have a mixed device landscape or are transitioning devices, the Ultra-Light Cart is a great solution, accommodating almost any device with up to a 14" screen size. The Intelligent Charging System and power strips can also be easily removed from the cart and setup as a charging station in the classroom, which gives you the ability to charge up to 40 devices at the same time on one outlet and never blow a breaker.

## Never Buy Another Charging System

Having first developed the Intelligent Charging System seven years ago, JAR Systems is the industry pioneer in intelligent charging of mobile devices. Our Intelligent Charging System has been developed to be both powerful and easy to use. Just press one button to start charging!

## Cut Down on Wiring Time

Streamlined cable management scheme allows for easy set-up. A/C adapters are stowed away beneath the shelf, which is lockable to prevent removal of cables. The cart supports both in-line and outlet chargers.

## Secure 3-Point Locking

3-point locking mechanism with swing handle and key lock keep devices protected. Optional wall lock solution provides you with additional security for your cart by anchoring the cart to the wall, effectively preventing relocation. It also allows for uninterrupted availability of the devices while the lock is in place.

## Five-Year Warranty

Comes standard with our five-year warranty that covers the entire cart including the Intelligent Charging System—longer than average electrical warranties.
