

JGD350S

COMPACT ANALOG DISPENSER

COMPACT - LIGHT WEIGHT - EASY TO USE

Jensen Global's compact analog dispense controller is a great way to deposit a wide range of materials such as, adhesives, solvents, silicones, solder mask, lubricants, paint, and more with repeatable accuracy. This controller can be used with manufacturer prefilled air syringes, valves, and when filling your own empty air syringes.

This dispenser is light weight, compact, and affordable. Please visit www.jensenglobal.com for more information.

PART #	JGD350S
--------	---------
