

The CP-475 is a set of two cable pulleys designed to help install electrical, COAX, network, and other various low voltage cables. With their swivel snap hooks, deep grooves, and anti-friction bearings, these pulleys keep cables aligned with the direction of the pull, preventing snags and kinks.

- Holds up to 20 CAT5/6 network cables
- Swivel snap hook installs easily and keeps pulley aligned with direction of pull to prevent kinks
- Anti-friction roller bearings and deep grooves allow cable to be pulled smoothly and easily
- Made from a high strength ABS plastic and zinc coated steel to provide enhanced durability and longer life
- Easy to remove the pulley after cable is installed
- Includes (2) pulleys
