

With their innovative squeeze and strip design, these self-adjusting wire strippers automatically grasp and strip insulation off wires. These tools are perfect for stripping thick or thin wall insulations such as PVC or other wires at specific strip lengths without having to make tedious adjustments. These self-adjusting wire strippers features the following:

- Patented stripping mechanism strips smoothly and efficiently every time
- Strips insulation off single and multi-stranded wires and can strip multiple wires of the same gauge simultaneously
- Strip length can be adjusted manually up to 15 mm (0.591")
- Wire cutters cut wire cleanly and easily
- Ergonomically designed to minimize hand fatigue during prolonged use
- High-quality laminated carbon steel stripping blades last over 30,000 strips and the tool has a life expectancy of over 150,000 uses
- WSA-1024 strips insulation off 10-24 AWG wires and cuts wires as large as 10 AWG. Replacement Blade: WSA-1024RB
- WSA-1430 strips insulation off 14-30 AWG wires and cuts wires as large as 14 AWG. Replacement Blade: WSA-1430RB
